Mission Statement

The Allen Lund Company is a national transportation brokerage firm whose business is to provide its customers with quality transportation service.

We recognize that profitable growth results from complete customer satisfaction.

We are committed to being the very best provider of brokerage service.

We hold true the value of hiring, developing and retaining the best employees in the industry.

Our management provides an open and innovative environment that promotes professional and personal growth.

"Our goal is to be a true intermediary with independence, honesty and integrity. We want to continue providing you with the very best."

Allen Lund, President

Allen Lund Company Story

Specializing as a national third-party transportation broker with nationwide offices, the Allen Lund Company works with shippers and carriers across the nation to arrange for the transport of dry, refrigerated (specializing in produce), and flatbed freight. Additionally, the Allen Lund Company has an international division, ALC International, which is licensed by the FMC as an OTI-NVOCC, a logistics division, ALC Logistics, and ALC Perishable Logistics.

Since opening our doors, we have always earned an exceptional reputation between shippers and carriers, exceeding expectations on even the most challenging projects. The company consistently earns a Four-X rating with The Blue Book and a Four-Star rating with Red Book Credit Services. These are the highest ratings a company can receive for business ethics, financial strength, and credit practices. A further indication of our dependability and reliability is our inclusion in the Platinum Performance Program established by TIA (Transportation Intermediaries Association).

Community Involvement

At the Allen Lund Company, we approach community service and volunteerism with the same entrepreneurial spirit that our company was built on. Through contributions and community service we are involved! Together we believe we can make a difference locally, nationally, and globally.

We enthusiastically encourage our employees to participate in community efforts by lending their time and expertise whenever possible. And they do! Our employees are active in hundreds of philanthropic organizations and we applaud their commitment to make the most of their time by helping others.

Services We Offer

Since 1976, the Allen Lund Company has provided our shippers with all means of over-the-road services utilizing a substantial and reliable carrier base to handle dry, refrigerated, and flatbed shipments. Freight is carefully monitored by our experienced employees using an advanced technology and communication infrastructure 24 hours a day, 7 days a week.

- ✓ **DRY VAN**
- ✓ **REFRIGERATED**
- ✓ **FLATBED & OVER-DIMENSIONAL**
- ✓ **INTERNATIONAL**
- ✓ **PERISHABLE LOGISTICS**
- ✓ **LOGISTICS/FREIGHT MANAGEMENT**

Refrigerated

Moving produce from every growing region throughout the United States, our experience is unparalleled within the industry. To ensure timely cold-chain management of your product from field to market, our brokers receive specialized produce transportation training. We also handle a wide variety of temperature controlled and frozen products with the same level of training and excellent service.

Dry Van

Whether you move one load a month or hundreds in one day, our network of nationwide offices will coordinate your truckload and LTL shipments to all points within the contiguous United States and Canada. Working with you, we find the right transportation solution to move your freight regardless of equipment requirements, multiple stops or deliveries.

Perishable Logistics

Perishable Logistics provides refrigerated experts remotely or on-site, shoulder-to-shoulder, to provide and implement a complete Perishable Transportation Management System (PTMS), which includes:

- *Core carrier coordination and comparison utilizing a fully integrated, customized website built to each shipper's specifications*
- *Rate negotiation and adherence to customer-negotiated rates*
- *Custom reporting with trend analysis*
- *Claims management*

Flatbed

Through our flatbed division we provide solutions for any size customer needing standard flatbed trailers or specialized equipment to handle over-dimensional/over-weight loads.

International Division

The Allen Lund Company International Division is your LCL /FCL services, air cargo, and freight forwarding management solution. Licensed by the FMC as an OTI-NVOCC, this division specializes in freight from the Pacific Rim, India, and Europe.

Logistics/Freight Management

ALC Logistics, a division of the Allen Lund Company, is a national third-party logistics consultant. This experienced team of transportation professionals utilizes an expansive web-based system to customize a cost-effective freight management plan for your company that includes:

- Account Analysis
- Cost Management
- LTL Carrier Negotiations
- Transportation Contracts

Transportation Management System (TMS)

- Pre-pay & Add Function
- Rating & Routing Optimization
- Online Bill of Lading
- Detailed Reporting
- Pre-audit Freight Bills
- Freight Payment

Carrier Resources

Our commitment to carriers:

Carrier Resources is ready to assist you to become an approved Allen Lund Company carrier. We tender loads of dry, refrigerated, flatbed, and LTL shipments. Whether you are an independent trucker, mid-size, or larger fleet, the Allen Lund Company wants to work with you.

Our commitment to shippers:

A strong indicator of our commitment to our shippers is our carrier review process. We review all insurance, driver and vehicle violations, and DOT information, prior to contracting with a carrier and tendering them a load.

Information Technology/EDI

Information Technology:

With a staff working 24 hours a day, 7 days a week, the Allen Lund Company “up-time” is consistently 99.8% annually. Our advanced data systems are protected from interruptions utilizing an off-site disaster recovery facility where redundant systems wait.

Electronic Data Interchange:

(EDI)—the standard with medium-volume and high-volume carriers—provides you with the capability of transferring important business information utilizing the Internet.
